USE WITH
CONFIDENCE,
BLOCK OUT THE
NOISE AND
INTEGRATE WITH
EASE

SLEEK AND TOUGH

ALL-WEATHER CONFIDENCE

Designed for use in any and every environment, the MOTOTRBO R2 is designed to operate across harsh environments. Use with confidence in dusty, hot, cold, wet, freezing, and more, and without case while wearing gloves. Specialty engineering makes the device and keypad an entire entity; the R2's durability means reliable, quiet communication whenever and wherever you need it.

SLIM & LIGHTWEIGHT

No more dropping around bulky equipment — the radio is as light as it is tough, engineered to survive the harshest conditions of everyday business. Weighing less than 11 ounces with a high-capacity battery, the R2 is the most ergonomic, fit-adjustable radio (R2) available and closer up to 6 years of field use. And better connected to an audio accessory, the robust design extends to the accessories, which ensure to match the site, service, and more.

FULL-SHIFT LIFE

The R2000T60420's ultra-high-density battery runs for 16 hours before it's changed. And the R2 uses a walk-talk-off guard, gives the PTT button no more than 200 light, silent flashes, and the signal is lost before change is made.

**DURABLE,
LIGHTWEIGHT
AND LONG-
LASTING, EVEN
IN CHALLENGING
ENVIRONMENTS**

MAKE IT LOUD

BLOCK OUT THE NOISE

Lead noise can make for unproductive, unsafe workplaces. MOTOTRBO R2's feature SMCx is a noise suppressor that uses advanced algorithms to single out and eliminate disruptive background noise. Communicate with clarity to stay safe near a power press, generator, drill, jackhammer, and more.

WITH NOISE CANCELLATION, LONG RANGE AND SELECTABLE AUDIO PROFILES, YOUR MESSAGE REACHES ALL CORNERS OF THE WORKPLACE

GO THE DISTANCE

MOTOTRBO R2 keeps you connected with clarity and noise suppression. But what if your workplace is spread out over a large warehouse or field? Boost superior range, high receiver sensitivity, high efficiency antennas and high interference immunity, providing clear audio over a long distance, even in noisy environments.

KEEP IT CLEAR

With MOTOTRBO R2's selectable audio profile, you can amplify low, middle or high frequencies to suit your hearing preferences and ambient sound levels. Together with the R2's loud speaker and low distortion, this feature makes sure that your message comes across loud and clear.

WORK, UNINTERRUPTED

SIMPLIFIED EXPERIENCE

Designed with the user in mind

Pick from a menu of features that help manage a busy day — easy-to-program and a familiar design, so your team stays productive without interruption.
